

### REMARKS

This Amendment is submitted supplementary to the previous Amendment and in connection with the interview with the Examiner.

The Examiner's highly beneficial cooperation during the conference has been gratefully acknowledged.

It was determined during the conference that additional clarification of the location of the bracing means 18, 18' would be advisable to structurally distinguish the present invention from the prior art.

With the present Amendment, claim 1 has been amended correspondingly.

It is respectfully submitted that the changes in claim 1 and arguments presented in the Amendment of August 13, 2009 clearly show that the present invention as defined in claim 1 clearly and patentably distinguishes from the Godrey patent and the present application should be allowed.

Reconsideration and allowance of the present application with all the claims currently on file is most respectfully requested.

Should the Examiner require or consider it advisable that the specification, claims and/or drawings be further amended or corrected in formal respects in order to place this case in condition for final allowance, then it is respectfully requested that such amendments or corrections be carried out by Examiner's Amendment, and the case be passed to issue. Alternatively, should the Examiner feel that a personal discussion might be helpful in advancing this case to allowance; he is invited to telephone the undersigned (at 631-549-4700).

Respectfully submitted,

Michael J. Striker  
Attorney for Applicant  
Reg. No. 27233
